BOABC Zone meetings held at the Saanich Municipal Hall over the last 5 months have included presentations from:

1. Spray Foam presentation by Leonard Siminowski from Elastochem Specialty Chemicals Inc.

Highlights of presentation:

Inspectors need to ask for long term R value of product, and CCMC evaluation report.

Site sticker to be posted on house usually at electrical panel, which should have date of foam installation. There should be a 24 hour no occupancy into the building after foam is sprayed.

Cartridge mask must be worn in building if any spraying is taking place.

Installer must carry a card of certification to spray that particular foam, certification required for each different type.

Contact Len with any questions on Spray foam as he appears to be an excellent resource on all aspects of spray foam Toll Free 1 877 Pur-Chem or (587) 830-4390

2. TECA-training-ventilation guidelines for all Part-9 buildings on September 17th. The course was well attended by both trade qualified personnel and building officials. A total of 18 people attended the course.

A new Zone Director was nominated by acclamation at our March 31st, 2016 meeting.

Our next zone meetings has been scheduled for April 28th, 2015.

I would like to thank all the BOABC Directors and our members for the support that has been shown towards me, and the South Vancouver Island BOAC Zone members.

The BOABC membership has a tremendous future ahead. I wish you all the best of luck.

Respectfully submitted,

Robert Gutierrez RBO.ACBOA.
BOABC South Vancouver Island Zone Director
