

Student Awards Program

The Building Officials' Association of B.C. (Association) is committed to increasing access to its educational programs and encouraging skilled individuals to become building and plumbing officials. The Student Awards Program has been developed to align with these goals and provide support to the building regulatory system.

Each award will consist of a building or plumbing level one online course and exam fees, and a one-year student membership with the Association.

The awards are given out annually and each award is valued at approximately \$1200.

Award Eligibility

To be eligible for an award, the applicant must:

- be either a full-time student in a field of study related to the building construction industry or working in the building construction industry;
- reside in British Columbia;
- demonstrate an interest in the building construction industry and desire to pursue a career as a building or plumbing official; and
- not currently be a qualified building or plumbing official.

An award is allocated for each Association zone every year. If applications are not received from one or more zones, those awards may be reallocated to candidates from other zones, even if that means that a zone will have multiple award recipients.

Student awards must be used in the year that they are awarded.

Annual Dates to Remember

- January 1: Student Award applications open.
- February 28: Student Award applications close (applications after this date will not be considered).
- March 31: The Awards Committee reviews all completed applications submitted before the deadline and selects award recipients.
- April 1: Award recipients are notified. Award eligibility expires for student unless extension provided in writing by the Association.

APPLICANT INFORMATION

Name: _____

Home address: _____
STREET CITY/TOWN PROVINCE POSTAL

Phone: _____
PRIMARY ALTERNATE

Email: _____

Check all that apply:

- I am a full-time student
- I work in the building construction industry
- I reside in British Columbia
- I am not currently a qualified building or plumbing official

Which course and exam are you planning on taking?

- Building Level 1
- Plumbing Level 1
