Competition No: 2024-262

This is regulatory and inspectional work of a technical nature involving the inspection of new and existing residential, commercial, and industrial plumbing, sewer and gas installations to ensure compliance to municipal standards, codes, by-laws, and applicable Regulations and Acts. An incumbent of this class inspects plumbing, hydronic heating, gas, sewer and drainage installations in various stages of completion along with participating in the inspection of the fire protection water service from the property line to the main valve station. A Plumbing and Gas Inspector 1 approves or rejects work inspected and enforces changes or corrections as required; provides technical advice, assistance, interpretation and information to owners, contractors, engineers, and architects on matters related to work. Prepares reports; assists with correspondence; writes objection notices; answers counter and telephone enquiries; and maintains records related to work. Performs related work as required.

Qualifications include completion of Grade 12 and completion of plumbing trade apprenticeship, plus sound experience as a journeyman plumber and gas fitter, or an equivalent combination of training and experience. Thorough knowledge of plumbing, gas fitting, hydronic heating and sewer-connection codes and standards and of the by-laws related thereto along with the methods, practices, materials, tools and equipment used in the plumbing and gas trades. An incumbent will have sound knowledge of computer software applicable to the work performed; ability to understand and interpret building plans and recognize requirements relating to plumbing, gas, sewer installations and drainage installations. Ability to establish and maintain effective working relationships with owners, tradesmen, contractors and others and enforce rules and ordinances with tact and diplomacy; to prepare reports, write objection notices; maintain records; and to work with minimal supervision. A B.C. Driver's License; B.C. Certificate of Qualification in Plumbing; Class B Gas Fitter Certificate with Electrical Endorsement; Certificate of Competency as a Gas Inspector (Safety Officer); and Cross Connection Control Administrator Certificate are required.
